Subject Re: Nature

Hi Phil-

I inquired about Nature at our horticultural library and we do not have Nature in our stacks. But we do have it in the Natural Sciences library on main campus. I would be happy to go over tomorrow afternoon about 2pm and inquire about this cover and to the possibility of scanning it in the library. If I can, I would be happy to scan and send it on. Could you please send me the publication date or volume number so I can make sure to grab the right copy? I give up an update on the process by 3pm tomorrow.

Katie
